Apocalypse May 25 2006 – Part IV.

By Julian Eric, May 11 2006.

I have first of all to present my excuse to all those to that I again was not able to reply, be by email, be by another canal. If you did not receive response, not some want me. I literally was assailed with letters to ask me which zone the tsunami was going to hit, or which disposals it was necessary to take to caution itself. I reply to these questions in this item, in the measure of my knowledge and available information. I thank all those that divided with me their visions and their dreams. I really was surprised to see as much world carrying this same visionary burden. To give you an idea of the volume of mails, a week after his opening, the sitehttp://www.savelivesinmay.com/ **posted** more a million *hits.*

I thank all those that are concerned with knowledge this that I will become to the day following May 25 2006 if nothing does not produce itself. This concern is touching, I am only a man, but not a single man. What do I weigh facing several tens of millions of victims potentielles? **I must acknowledge that this excess of « compassion » for my person, while millions of others are in the balance, fills me with effroi and of lack of understanding.** My items have not for goal that of calm one the mental one and to call upon the intelligence of the heart, the one that except lives.

I do not bring the fear but a mirror. This is the reason the very numerous mails that I receive go of an extreme one to the other of the human feelings, hate to the gratitude, apathy to the constructive action. **This completely real alarm does nothing but to exacerbate this that we are at the deepest one of ourselves.** Certain wonder me this that they can do to save their skin, of others this that they can do to save the one of the others. I tend to reply only to the latter for management reasons of the time for I receive a very big number of emails. The time is given it basic of the next days, next hours.

Has to leave instant where you will have finished the reading of this fourth one and last item on May 25 2006, **the countdown will be pitiless.** Lost**every minute to warn others will do**

several thousands of deaths. Would not be this step as much of crimes? Not itself does it act there of a crime against humanity? Not it will be necessary, when the time comes, to constitute itself civil party to condemn legally persons in charge?

Alarmevery action and prudence every gesture will be as much lives saved, as much of mice to come that our world-wide solidarity will have created. Saved**every life will give birth a spirit liking and luminous. The test to come is the one of the human** brotherhood. You will see more fear, of selfishness and of violence than never beforehand. But you will see also more témérité, of solidarity and of goodness than never beforehand. The old world will die for the simple man, by his courage, will generate more to be awakened than an entire generation of « spiritualistes ».

Certain launched me paris. Of others of the insults. Certain are themselves sudden discoveries a talent of medium with the Christ, of others with the highest interstellar instances. But by beyond this opportunism marsh and of false spiritualité, **I met of the be human gifted…d' humanity.** And this were my bigger joy. Some warned media that invited me, of others prepare **concretely** discharges. A lot take tremendous initiatives and have not, strong fortunately, need of my opinion for face the danger and help their near ones or their fellow-countrymen.

What itself will it pass after? The world will know an emotional and economical shock of an unprecedented extent. Of other earthquakes, of other volcanic eruptions will produce themselves. Of other disasters will arise, but we will remain living. The certaintys will collapse as a castle of cards, the false prophets will multiply themselves, the vultures also. It will be difficult to keep the cold head and face worthily to the reconstruction of the hearts and cities. All requests of the assistance, that she be more psychological, more medical or more logistical. But wisdom not does she say: ***« Help You and the sky will help you! ».***

A lot will exempt this assistance with intelligence and love, while proud fact of diasporas. Heroes will be born on the corner of your street in less than a month. They are here and now the True Elus of which speak so many religions. To my direction, the spiritualité is not belief, or autosatisfaction, but act of good will. I greet these big futures men And lucid women with a deep respect. The world has them already the gratitude. But the martial law could install itself for face the ambient disorder. Then the men will go maybe to the war to avert goes out for them that, precisely, will be had to their attitude guerrière. A lot will obey the orders, of others will flee and will hide themselves. Nevertheless it alone attitude to hold will be the peace between we and with « those of in top », that the former civilizations called the « Gods ».

You do not believe in the extraterrestrial ones? Do you reassure it is only an apprenticeship problem, and no of beliefs. The title of the latter item - « *Apocalypse May 25 2006* » - is at once provocative and irrévérencieux. But this is nevertheless exactly this that will produce itself. Etymologiquement, according to the collective dictionary in line Wikipedia [1], the apocalypse the transcription of a Greek term, himself translated Hebrew *nigla* which means *put to nude*, *discovered ear* or *revelation.* The term means *Revelation*, for the apocalypse, 66ème And last book of the Christian Bible, wants to be itself a revelation on the end of the world and on the instauration of the Kingdom of God. A strong destruction connotation weighs therefore on this term.

Do you think an alone instant that the promised Revelation have an any report with this that is repeated and transmitted to the laymen since centuries? **In this case** , **in what would she be a Revelation?** Do you think an alone instant that God, Inconnaissable so It is everywhere, in

all, and especially around us in the visible and invisible universe, and in the other billion lived worlds, moves itself in « person » on the grain of sand that is the Earth? **Qu'a-t-on of special one to deserve that?** That not removes at all the idea of God, well to the opposite. That glorifies It a little more and we puts back simply to our humble place in the progressive hierarchy. Darwin had maybe reason on a point: **Survive only those that adapt themselves.** But to survive to what?

The Revelation - therefore the apocalypse - is, I believe, as much the New one that the Destruction. This is even the New one that brings the Destruction! The extraterrestrial ones evolved that visit us, sometimes under the form of an OVNI when they are visible to the nude eye, know since millenniums that the death does not exist. **The death is only another state of the being. They are Precisely immortal and have the faculty to embody itself to will, from which their furtive apparitions. This is the basis even of their technology.** But here, the usage of the nuclear weapons has harmful consequences in the parallel universes that surround us and we cross.

The petitions **********, as the one that of the scientists again realized recently to the intention of the administration Bush to stop the possible employment of atomic weapons in the next conflict against the iran, did long fire since tens of years. The extraterrestrial ones themselves did not stop warning the governments while visiting the nuclear strategic sites, while neutralizing certain of them, while contacting become humans « messengers » of which everyone made fun of, and even while meeting physiquement of the leaders. **Nothing did not there do. The extraterrestrial ones do not ask us nothing if this is not to leave the universe in peace, of not to export our belligerent spirit outside our space times.**

My item " ***Are We a threat for the extraterrestrial*** ones?" gave rise to a lot of curiosities, of interest, but also of sarcasmes. «*If the AND really are evolved, they all can neutralize*», I already heard here and there. This argument type comes, you yourself some doubt, of persons that never met of extraterrestrial ones. How neutralize close to 15,000 nuclear heads? Hundreds of production sites? Hundreds of thousands of persons that participate in their manufacture? How? By an attack flash of thousands of vessels deploying a colossal energy and risking considerable losses? **Or while addressing a message cométaire clear, unique and « convincing »? The one of May 25 2006?**

How knows one that the comet fragment comes from the AND malicious? But that therefore announced by advances the event, the reason as well as his date, against the opinion of the « experts »? From the standpoint materialist, we consider this act of the AND, aggressive and deadly. **But, having only very little accesses to the other realities, we have a limited** spirit. We believe ourselves again centers it world. Nothing did not really change since that the Earth is itself round and waltzes around the sun. **For the AND, life continues after the death. They go therefore to proceed to a transfer of the souls. This that we call the DEATH is, for them, the LIBERATION on approval.**

We are unconscious of the consequences of our here low acts in the existence plans that we go ourselves, and again, expérimenter! **Of a certain manner, these AND we will put to places for them! Isn't that right that of which a lot dreamed?** But it is to fear us obtained only the measure of this that we will have given Since **we live the world that we created in the past.**

A small digression. In the matter of thought creator, the ego of certain ones « spiritualistes » so big east that they think to be able to represent the think about 99% world-wide population, to the point to put the head in the sand, and be unaware of the environment, when the danger

arises. Wisdom wants them to get ready to the « possible ». This is the reason of the alarm exercises, to the tsunamis or to the earthquakes for example, realized in many regions or municipalities. It is wise, intelligent, reasonable et…humain. **One calls that the responsibility citizen.** I close the parenthesis.

The other solution of the alternate one is **the total stop and without condition of the nuclear weapons to the world-wide** ladder. **What are the things said clearly. I have no party for or against the one or the other camp.** Human stupidity is equally divided up on the surface of the Earth and in the nations. All the same, the good will and intelligence have not or skin color, or language, or passport, or… race. **In changeable of ladder, we change paradigm.**

Those that assert that the USA must be punished are as ignorant as those that want the Israël destruction or iran, or as do I know again. The alarm that I launched in the name of the extraterrestrial benevolent one that desire a jumps positive of humanity, has as much **for goal to save concretely lives that to understand that we are not alone in the multiple** universe. But to present itself to this multiple universe, for done candidacy act as a civilization evolved **one, we must come in peace and in conscience.**

Unfortunately, **the reality of the war recovers** us. To the last new one, according to of confidential the news, the door had American USS Enterprise would have left his home port in Virginia with 7500 men to his edge (instead of 4000 habitual ones), c'est-à-dire in his fight configuration maximum. Officially, the war has not again place. But the messenger he created this position?

Reminders of the data.

«Yes, I know, the NASA said que…Et since the beginning of my items, I say that the NASA was going to say que…Tout is « normal » ». Officially, there is not danger. The fragments of the principal body of the comet SW3 will pass very far Earth. I say it and the repeats since several weeks. As early as the second page of my first item I had indicated it. Is this that all is well for as much? **Where is passed the fragment S of the tablettes of the NASA?** Volatilized? **And the fragments that one does not see again? And those that form themselves in a manner continuous, and surprising for the astronomers?** For memory, the Earth did not cross the swarm cométaire Tau Herculides, linked to SW3, since… 1930, **it there three quarters of century!**

The astronomer Paul Wiegert of the university of Western Ontario, author of the study [2] of MAY 2005 on the link « comet SW3 – swarm of meteorites Tau Herculides » déclara [3] :

« Let us *believe**Us that the cloud spreads itself too slowly to attain the Earth only eleven years*

*after the fragmentation,**but that depends on cause that fit to cut up itself the comet – and that we do not*** know.

The most probable one of the explanations a stressed thermal, with the frozen kernel itself hilarious as a glaçon in a hot soup: the comet itself brisa as she approached the sun after a long stay in the icy system sun exterior. If this is really this that produced itself, then the cloud of fragments should spread themselves slowly, and there will be not a strong rain of meteorites.

Of another side, quid if the comet was broken by the impact of a small interplanetary stone? A violent collision éjecterait of the debris well quicker that could attain the Earth in 2006. (…)

*The fragmentation of the comet, in course, mean that of new meteorites are sent in of new directions, thus **a strong rain of meteorites of 73P remains a real possibility ».***

I will not go back over the question of the collision probabilities, outside the belt of asteroids, of an asteroid with a comet. On a forum Internet [4], about the fragment SW3-BD of which I spoke in my preceding item (abnormality of the data), a member mentions the email below:

*«No new data was not retrieved for 73P-BD. The minimal distance is an effect of the uncertainty of 1,9 UA in the solution of the half major axis, had to the arch of the 6 days. **The uncertainties are so big**, they cover a big party of the solar system interior, as well as describes above. The Earth there cannot nothing but is part of this zone. The dynamics of the complex one 73P is known, this is not a novelty ».* Navigation & Mission Design Section Senior Analyst - Solar System Dynamics Group. Xxxxxxxxx@jpl.nasa.gov **- Throw Propulsion Laboratory.**

The dynamics can she be known when « *the uncertainties are so big »?* What that means? With the American humorists, NASA means: **N** ever **HAS S** traight **HAS** nswer (never a direct response). But while some play with the amount, of others play with lives.

I had foreseen to summarize the aspects probabilistes of the impact of a comet on the Earth during the history to show how much this event is comparatively banal - in particular for the fragments décamétriques - and unfortunately deadly. I could quote you tens of real and recent examples (thirty last years), do the light on mysterious cases of explosions cométaires, of which the one of Tunguska in Russia in 1908, but the time lacks me cruelly to take forehead

all the technical and scientific subjects that would show the existence of these fine *zones of uncertainties.* Yesterday again, I looked at a report on *History Channel* indicating that **we did not again identify at least 40% of the objects being able to present a risk for the Earth.**

A lot think that that will arrive in thousands of years. Nevertheless the rains of meteorites fall all the months [5] and the danger of an impact of big fragments, according to these same statistics, more imminent east today than never. I received tens and tens of links Internet all more interesting ones them a than the others for some to testify. But to inform you efficiently and quickly I had to abandon my pretention to go in the detail [6]. Of others will take the relay around you, on the forums or on the sites, to the radio or the television.

Here therefore some pulled pictures of a site [7] Internet (this is enough speaking) :

An announced event by synchronicités.

I's - The films.

1) Gone out of the **film Poséidon [8] May 12 2006** presenting a gigantic wave in the Atlantic doing to sink a very big named paquebot « Poséidon ». The 12 east the date to the more close to the Earth of the big first fragments of SW3. **The film announces « a MAYDAY » May 12 2006!**

My vision behaves **a paquebot sailing in the ocean Atlantic** since this is of a paquebot that I notice the eddies more and more forts to the surface of the ocean.

The gigantic wave is a true water wall, as in my vision. This wave will arrive certainly night on the coasts Atlantic eastern.

2) The **film Deep Impact** , the one of which the scenario is the likeliest one in his kind, possesses many similarities in comparison with the reality. It took out in room in 1997 to the USA, after the fragmentation of SW3 (1995), but **in fine France MAY 1998** (a French announces a *deep impact* for fine May).

The similarities of **this prophetic** film are numerous:

- **Film** : it is a matter of a fragmented comet of which it one of the pieces, the smallest one, falls in the Atlantic. **Reality** : the comet SW3 is fragmented and this is the one of the smaller fragments that will fall in the Atlantic.

- **Film** : the biggest comet transforms itself in a rain of meteorites. **Reality :** we will know the rain of meteorites Herculides Tau.

- **Film :** the comet carries two names, wolf-biedermann. **Reality** : the comet carries two names , schwassmann-wachmann.

- **Film** : the two names, wolf-biedermann, have a German consonance. **Reality** : the names Schwassmann and Wachmann have a German consonance. The W of Wolf is located in

these two names.

- **Film :** the one of the two names finishes by « mann ». This Name pronounces itself « Bi-der one-mann », meaning **two** (bi) **times I '** (der) **German man** (mann), be two men coming from germany. **Reality** : the two names of the comet, Schwassmann and Wachmann, finish by « mann ». Friedrich Carl Arnold Schwassmann and Arno Arthur Wachmann were German.

- **Film** : the one of the discoverers of the comet (Biedermann) and of his danger, does not belong to the scientific community. **Reality:** I do not belong to the scientific community.

- **Film** : before impact cométaire a near man of the American President (the Secretary of state to the Treasure) resigns little time before for obscure reasons. **Reality:** The director of the CIA, Carry Goss, has just resigned (6/5/6) while qualifying him even his resignation of « mysterious » [9].

- **Film** : a number of individuals are selected to benefit from military shelters. **Reality** : the one of my correspondents m'apprit me very recently that the American government came all just one to activate the military shelters of the coast Is USA while the endowing with screws stocks. For that?

- **Film** : this is not the end of the world for there is many survivors. **Reality** : this will not be the end of the world and the majority of the humans will hold themselves always standing.

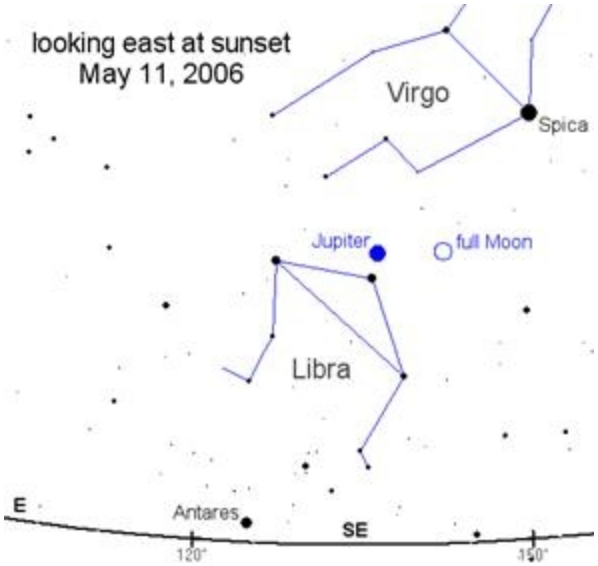
3) Gone out of the film **666 the Malédiction** June 6 2006 (the Omen 666).

II – personal Data.

May 25 2006 some did June 6 2006 - 6/6/6 - once converted in the JULIAN calendar. **This is the case on the symbolic** plan. When one does a simple conversion of May 25 2006 in the Julian calendar (emperor Jules Caesar), appeared in 46 before Jesus Christ, **that gives May 12 2006, dates back to the first approach to the more close to the fragments of the comet SW3.**

This some did between the 12 and May 15 2006 that will be done the approaches to the more close to the majority of the fragments of SW3. But person does not use the Julian calendar since 1582 in France (later according to the countries; since 1917 for Russia for example). This is besides this that does the difficulty of the conversion. This is the reason it is logical to choose a gap of 12 days (instead of 13) between the Julian calendar and the current Gregorian calendar if one reasons to the world-wide plan as the demands the nature of the announced event here.

Thus, **the 6/6/6 is potentially May 25 2006 of the Julian calendar, name of the « messenger of the** apocalypse », and May 13 2006 the sign in the sky. This sign will be besides multiple since we will have the full Moon and the position of Jupiter to the more close to the Earth. This gigantic planet, mistress of the Sagittariuses, will be at the most near during the whole months of May, releasing by his symbolic force, more than by his gravitation, a big mutation on Earth. May 11 Jupiter will have a noticeably size the same as the full Moon [10].



Note that the comet SW3 (its principal fragments) will attain his périhélie – his point to the more close to the sun – June 6 2006 (6/6/6)! Knowing that his point to the more close to the Earth will be May 13 2006, May 25 2006 east exactly to mi-chemin between two symbolic dates. Mostly people, 666, the Figure of the Beast announcing the apocalypse, has a very negative one, indeed devilish connotation (as if God had invented the Evil with his adding machine).

For the true ones initiated, this is a witty figure of Régénérescence of the soul human by the test. You will understand although I do not reveal this type of « detail » for the pleasure. **But this « detail » will convince you, I hope it, to save your life while moving away you from coasts and or while climbing on the heights.**

Hebrews read their right texts to the left. **666 east some does 999.** Now, the 9 east the last figure. It designates therefore the end of a world (of selfishness, of brutality and of ignorance to which one so many people seem to hold). A netsurfer (Bruno Mosa [11]) points out that « *in the mystical Kabbale the 6 is represented by the vav (or waw), this is to say the v (or the w).* ***Thus, 666 writes themselves www*** *that is the brand of the « stupid » (Word Wide Web), this is to say a waiter or servant of the world ».* **Now, the alarm to the gigantic tsunami started up and spread itself on Internet for the human safeguard!**

III - prophetic warnings:

It will be a lot question of gleaned information on Internet for today this is there that the majority of the media will look for his first matter. A first information: «*L' eclipses solar of March 29 2006 took place in the 2nd sidereal décan of the Fish. The very big astronomer astrologer Hindu Varahamihira wrote that an eclipses in this décan causes tsunamis and floods ».* For memory, this eclipses of March 29 2006 took place in the middle of the Atlantic.

The prophecies of « the End of the Times » are innumerable. They exist in all the cultures and convergent strongly towards the current period. But most of the prophecies are particularly miserly precise dates. I preferred not to develop all that the writings, that they be « holy » or no, furnish to the researchers to build this « demonstration ». The most handle too often the metaphor, the ellipse or allegory. **I myself therefore limited to an as factual one as possible** approach.

Allow me first of all to recommend you the reading of an item: «*Comet Impact Prediction* » by the Dr. Barry Warmkessel [12].

I not necessarily in keeping with the body of the materials brought but it is a matter of an analysis informed and deepened realized by a university one. The one of the interesting details is that Newton, the so dear reference to the dogmatic science, establishes the « fine of the times » some years after the year 2000.

The prophecies of **Nostradamus (1503** - 1566) and of **Mother Shipton** (1488 - 1561) are the principal medieval sources of the evocation of an or several comet impacts on the Earth.

It is difficult to withstand the famous quatrain X.72 of Nostradamus:

"The year be chummy with nine hundred nonante nine seven months,
Sky will come a big effrayeur roy:
Revive the big angolmois Roy,
Before apres March regner fortunately."

A lot was written about this quatrain. Nothing of this that produced itself in 1999 does not correspond to this that is described. **Now, the prediction that I did east in accordance with this quatrain.** Nostradamus, big amateur of enigmas to decipher, does not speak year 1999 but of 2006 for it is necessary to add **7 to 1999 (= 2006).** The word « months » first line does not come here that to jumble the cards for the layman, and especially gives rhymes it to « of angolmois ». It is necessary to read in reality: «**The year 1999 and 7, May ».** The old French « oi » transformed itself in « have » in several cases. **The « big effrayeur roy » is the comet SW3** that passes to the most near in May. The frayeur comes from this that impact is announced publicly to the world-wide ladder. The « big angolmois Roy » done reference to the anglois Duke that inventa the burning poix, matter sort visqueuse and burning, **as the washes volcanoes.** The name « Angolmois » has visibly a defect - the ending « months » - done echo to the defect of the first line of which spoke us (« months »). This is therefore a wink of Nostradamus to indicate us the trap. **The comet comes therefore to awaken a volcano, exactly as my vision.** At last, March represents the war. The impact of the fragment succeeds the war in Iraq, but precedes the one in Iran that arrives quickly behind (« by good hour »). Here another importance quatrain:

The big êtoille by seven days brullera,
Cloud will do two suns apparoir:
The big mastif all night will yell,
When big pontîfe will change land.

The fragmented comet will be effectively visible for a week. Thanks to his fragmentation forming then a luminous cloud, she will give the impression that there is two suns since she will be so visible day to the nude eye. This that is striking is that the position of the comet in comparison with the Earth (between she and the sun) from mi-mai corresponds to this vision description of day. A big fragment will bump the Earth to the fallen night and will produce a deafening explosion. The event will force the White House (« big Pontîfe ») to move away itself from coast Is United States.

In his item, the Doctor Barry Warmkessel analyzes with minutie the prophecies of **Mother Shipton** , been born in England to the Middle Ages.

Its 31 prophecies are classified according to their degree of historic legibility. This classification goes letter HAS for the more identifiables, to the letter F for the most obscure ones. It is striking to note how much its predictions are near of the one of the codes of the Bible (to see lower). **I did not keep here that the principal aspects that interest us for May 25 2006, in the huge mass of available information. All are category HAS (big legibility). Alone this that is red is of your servant. The remainder comes from Mother Shipton.**

- **Impact is anticipated:** This is the case of my prediction.
- **The heaps cométaire is visible:** This is the case of SW3.
  - The first heaps cométaire appears: Recently in January 2006 for SW3.
  - It was noticed 6 times beforehand: This is the case of SW3 since 1930.
  - The event is visible for 7 days: This is again the case of SW3.
- **The first impact cométaire produces** itself: This is my prediction. Note similarities.
  - The messenger of God brings storms violents.
  - Impact does a very big noise.
  - The old countries die, of newborns.
  - The impact of the comet produces tsunamis.
  - Impact awakens volcanoes.
  - Impact produces earthquakes.
  - Of immense floods arise after maritime impact.
- **Humanity fights to survive:** This is rather predictable if the economy collapses.
  - The survivors hide themselves and of beat between them.

- The food is hidden, jealous kept and fought.
- The fight of the survivors supply a global hate.
- The first comet fragments disappear.

The commentaries of the Doctor Barry Warmkessel are explicit. **The event must take place in 2006 or 2007! Note that Mother Shipton mentions the arrival of extraterrestrial ones in favorable terms for the humanity after the event.**

Confirmations do not stop themselves there. They are extremely precise. This is even a true one « festival of coincidences ». Note first of all that in the calendar hébraïque, widely used in the jewish religion again these days, the year 5766 commença October 4 2005 and will finish September 16 2006. **This figure 5766 can be interpreted by the figure of the beast, 666, for between the 5 and the 7 is located 6 (5<6<7).** Between the day of the parution of this item and September 16 2006 (fine of the year 5766), it remains only four months to the course of which ones should arise this that is announced below.

May-mai **2006** **iyyar-iyar 5766 / Sivan 5766**

Sun/dim	My lun	Kill mar	Wed/mer	Thur/jeu	Fry ven	Shabbat
	1 3	2 4	3 5 Yom Hectares atzmaut	4 6	5 7	6 8
7 9	8 10	9 11	10 12	11 13	12 14 Pesah sheni	13 15
14 16	15 17	16 18 Lag b'omer	17 19	18 20	19 21	20 22
21 23	22 24	**23** **25**	24 26	25 27	26 28 Yom Yerushalayim	27 29
28 1	29 2	30 3	31 4			

In the calendar above, we see a remarkable thing: May 23 2006 of the Gregorian calendar (the current calendar) IS May 25 (Iyyar) calendar hébraïque. The latter designates the year in course as being the one of the Beast (to see higher: 666). On the site Exodus 2006, on which I will return, are located several decodings hébraïques of the Bible according to the remarkable decoding of Michael Drosnin, author of the *Code of the Bible.* Of authentic mathematicians showed that the codes of the Bible, written in Hebrew, are real and published their results in a specialized newspaper (the first item

was published in *Statistical Science, Flight. 9, No. 3* by Witzum, Rips and Rosenburg).

The one of the transcriptions more astonishing does not suffer from hesitation as for the precision of a warning of a remarkable clarity:

The man is for him, and the heart of the 25 Iyyar 5766 (May 23 2006); My laws – God to the demon in him, and destructive innocence in him. My sign, we live in waters, God is here[13].

I leave you the leisure of the final interpretation as for to know that is « the man », this that mean « demon », « innocence » or again that is « we ». I had announced in my all first item that the event would take place **around May 25 2006, more or less two days.** Or again [14] :

May 23 2006, It jugea!

The transcription is realized while generating near lines in a same text body. The laws statistics forbid that the least chance can be applied to a continuation so perfect of willing letters horizontally, vertically and sometimes in diagonal. For the remainder of the described transcriptions lower, I relate back to you the site. http://www.exodus2006.com/ Here a gate example of decoding.

The stones are at the plural one. It is a matter therefore of a rain of meteorites.

A crude and bitter stones in 2006

Bitterness returns often in these sentences. She can be taken to the figured direction, but also to the clean direction: salted water is bitter.

Heartman; Curses this bitter year 2006 for us, please!

The exile takes fine, the master will come

The fire will come – In 2006 – The People; It will pay for. The fire is for him

The impact in 2006 arrival and produces itself

In the calendar hébraïque, it does not remain anymore than four months in « 2006 »

2006 for the suffering

They return in 2006

Who returns in 2006, if this is not the comet fragments? The extraterrestrial ones?

God in 2006, pull

Well evidently, this step God himself that pulls, but those that one calls « Gods ».

His witness and the rock. In 2006 the proof; the language in my witness

I leave you to guess that is the witness.

Deep Impact, I will quantify. Who détruisit?

The question seems capital.

The devil of the crop circles – skies and the army

That seems clear: the crop circle « *Missing Earth* » comes from the AND malicious and warriors.

Al Sutton [15], the one of the principal decoders of the Bible in the quoted site, indicate: «*Something important fact to intervene a comet or a meteorite can arrive in a near future. The year 2006 could be the one of the years more interesting than the Astronomers never will have lived ».* Al Sutton suspected in 2004 the existence of a comet for the year 2006 to open the 6ème Seal of the Book of the Revelations (Rev. 6: 12). The first fragments of SW3 are reappeared in January 2006.

In the same idea order, **the rabbi and renowned cabaliste Rabbi Yitzchak Kaduri** was considered as the most oldest person of the elite of the Kabbale hébraïque. In last January, 300 000 persons came to pay him homage for his enterrement while it had just died to the canonical age of 105 years.

Yitzckak Kaduri lanca an international call in September 2005 to the body of jewish diaspora in the world to return towards the Israël Earth to be saved natural disasters that threaten to hit the Earth. The Rabbi expliqua feels it year 5766 (2005/2006) that was going to begin three weeks later. «*This will be a secret year and of revelation »* he says. Can one to imagine that the secret of some be also the revelation as brings the items of this site ()? http://www.savelivesinmay.com/ **Let us note that the Rabbi Kaduri had predicted the tsunami of Sumatra two weeks before it does not produce** himself [16]. It declared for 2006: «*All that of which the people are sure that it will not arrive likely east to arrive, and all that of which we are sure that that will arrive can disappoint us. But to the end, there will be the peace in the world ».*

Here below some prophetic elements pulled of a site [17] of Christian confession. I will not be involved myself in a religious debate, having myself known contact experiences of a special type. This that interests me is to divide with you the details of certain prophecies. It is sometimes question of « *three asteroids comets ».* Do we remember that SW3 was divided in three in 1995, and this is the third one of the (doubles) name schwassmann-wachmann! **But it is possible strong that there be not that an alone fragment but several (three in this case). Of course, they will not be necessarily even cuts.**

1) « *This event will be the first event: this will be the beginning of the suffering* (…) » -Virginia Boldea

2) « *THE EVENT of the three asteroids comet will produce itself before the earthquake that will arise in the Midwest that will create a big lake that will divide the USA, as well as already prophesied it Timothy Snodgrass and Stephen L. Bening* » - Ann Peterson

4) « *This event of the three asteroids comet will be announced by a final warning that will begin simultanément with identical dreams of warnings that will be received by a lot* » - Bobsled Neumann, Stephen L. Bening, Megan Mr. Bening.

Nota: I received a big number of testimonies of dreams of tsunami in the Atlantic in the same period that my vision.

5) « *The Caroline of the North will be flooded to the west to Morganton, to a distance of 200 miles (320 kms) inside the earths, and to an altitude of 1160 feet (350 m) ».* - Bobsled

Neumann.

6) *« THE OCEAN will invade the earths to Gwinnett County, in Georgie (just to the atlanta Southeast) to an altitude of 1080 feet (330 m), and to a distance of 225 miles (360 kms) inside the earths ».* - Ruby Golden

7) « *The Florida will be covered by waves that will be higher than the roofs* » - Billie London.

8) « *Key West, in Florida, will be destroyed by a tsunami* » - Dan Bohler

9) « *The population will be warned to the television to 18H. The first alarm will be done by CNN. The following alarm will come from Pentagon. The discharge zone will be announced as going Key West, Florida, to Rock Plymouth, Massachusetts ».* - Bobsled Neumann

10) « *THE IMPACT of the three asteroids will arise to 22H. »* - Bobsled Neumann

11) « *Two asteroids comets dive in the Atlantic, a third one will fall in the Gulf of Mexico. On the impacts in the Atlantic, the one will be at the height of the Caroline of the North, the other will fall facing the coast Is Florida* » – Bobsled Neumann, Ann Peterson, Gloria Lopez.

12) « *This event will release the martial law, with a military deployment in all the States Unite* » - John Lallier.

13) « *This event will arise in relation with the arrival of a big brown asteroid in the solar* system ». - John Lallier.

Nota: it is strange knowledge that a big asteroid (2006 GY2) of 1000 meters of diameter will pass to the more close to the Earth May 16 2006 to very weak distance. It could have hit a fragment of SW3.

14) « *Several prophets say that this event is established, and that it will arrive with certainty and will not be canceled to the alone name of pity ».* - Billie London, John Lallier.

15) « *It there will have only two warnings: the prophetic alarm and the simultaneous dreams (…) 20 hours before impact ».* - Bobsled Neumann, Ann Peterson

16) « *Those that will await to see the asteroids with their physical eyes perisies themselves they live in the destruction zones. The prophecies and the dreams must take into account in order to flee ».* - Bobsled Neumann, John Lallier, Ann Peterson, Stephen L. Bening.

Here a small sample of experiences or of dreams of my correspondents, received these two last weeks.

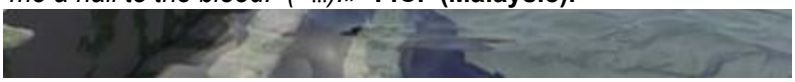
«I would wish to say you that I also had a vision of an impact in the ocean arising during the year. I had also the vision of millions of deaths because of the tsunami that suivit. And, as you, I see that it is only the beginning of the destructions.

My contacts with of the to be evolved coming from other dimensions are had to the huge transformation in course on the planet ». **B.M. (Germany).**

« My name is F.C. of Malaysie. By the presents, I wished to divide the lucid dream that I had the first week of January 2006. That happened to the dawn very early. (…)

I held myself with a colleague on the beach and sudden I live two asteroids piercing the clouds and rushing towards the ground for an imminent impact. The asteroid was huge. Because of the impression of the shock, I perdis the vision. Before I do not recover my normal conscience of eve, I broke my nail of my small finger and I begun bleeding.

I terribly was shaken by this experience. (…) I wondered why my work colleague was with me in this dream. Until I cross your item. Recently, my colleague put back his resignation letter. His last day in the office is May 25 2006. I not some believed my eyes. Of my life, this is the first time that I have a lucid dream and that I awaken while breaking me a nail to the blood. (…).» **F.C. (Malaysie).**



« The latter years, my dreams became more recurrent than the normal one. I had recently a dream that here:

I was at the exterior one and looked at the blue sky and lives a meteorite fragment falling sky. It seemed long, very hot and had a big crater and several small brands when it passa in front of me (I live to the Texas). I live with horror that it moved away himself towards the horizon. The dream prit fine.

I do not know if this fragment is as the one that you described, but same manner, the dream is a warning of this that must come under little time ». **C.L. (Texas, USA).**

« How do you know that that really will pass itself fine May? I a saw and knows that the two sides of the Atlantic will do the experience major tidal waves, but I have not any date and I not nothing received about this date ». **N. (USA).**

«I think that something will produce itself May 25. (…) About 1989, I had a dream where I was sat all at the top of my house…j's' was calm and in peace. I live a huge water wall to come towards me and that m'aspergea me. I myself battis to remain all in top, but I failed. This that me very curious sembla was that the water wall came from east. I would have thought that it coould from South since this is there where is located the Gulf (nda: Gulf of Mexico). Nevertheless, the Atlantic is at the east.

Years later, I HAD another dreams vivace. A small former friend itself précipita towards me and me demanda to leave the places with lui…il were very frantic. This small former friend works to the NASA in this moment.

These two events can be simply rêves…mais these two there really marked me. I did not never forget them ». **Mr. (Alabama of the South, USA).**

«I remind me a dream that I had there is about two years. I had several dreams in which these I see the Earth through a small window. I live to the this that I perceived to be a meteorite hitting the Earth and an explosion. I was not able to see where produced itself impact. (…) I live in the Midwest but it me sembla that it was very far in the east ». **E.M. (Minesota, USA).**

«I had visions of big waves and a tsunami in my head but I not some never spoke. Although it in be, I wanted to divide my experience. I think also as it will be a matter of a swarm of meteorites ». **R.F. (USA).**

«I member of an assembled évangélistes pentecôtiste, and at the time of the Sunday worship, a sister prophesied that a destructive wave would come on the Guadeloupe, without specifying date. The Holy Spirit asks the faithful ones to pray for that the angels of God deliver them cataclysm. It is only after that that I discovered your site. During this month of May I will go to the worship to see if there is more precisions. What God blesses you ». **C. (Caribbean, France)**

«I was astonished and terrified by the parallels between your clean ones meet extraterrestrial and mine. (…) Most of the events in parallel eurent place enough recently. In these two last weeks, I had recurrent dreams of huge tsunamis breaking itself on of big zones populated; the most memorable one of these zones was Miami, that was, in these dreams, literally swept by waters ». **S.M. (USA).**

I cannot compile here all the received testimonies for that would become tedious. Know that there are some tens. Closely or by far, these dream experiences lucid evoke **an object that falls sky, bumps the ocean Atlantic, provokes a gigantic Tsunami that comes to devastate the coasts Atlantic**, in particular fine May 2006.

The people lose confidence in the data presented by the official organisms, in particular since that one learned, for example, that **of the photos were « touched up » by the NASA to conceal the non identified object** presence. Among these people that lost confidence in the administration, here this that announces a person on a forum [18] :

«I moved my family of the Florida towards the Tennessee and now I write since the hotel. Now I can write. THE "OP" HAS REASON (nda: this is not me). *Why the NASA n'a-t-elle do not update its data? The evident one and logical reason is that there will be an impact or several impacts. The projections of yesterday show the Atlantic South with a total devastation of the Florida and coast Is. Anticipate a big wave of 200 (65 m) to 400 feet (130 m). The NASA will not furnish an alarm that 20 hours Before ».*

The left second of this item will be available in a very short delay. **She will concern the zones that it would be preferable to evacuate.** The whole difficulty comes from this that the parameters are very numerous to evaluate to determine the dangerous zones. **For those that will not have the leisure or the time to read this left** second,**it's better to be at at least 150 kilometers of the coasts Atlantic if the region is flat, or to at least three hundred meters of height. These values are, I think, maximum and are not valid everywhere. I prefer**

nevertheless to remain prudent. Take care of you!
